

graduate-doc-template

This template repository renders the README.md file into a styled HTML page and a downloadable PDF using a Jinja2 template and WeasyPrint. It is fully automated via GitHub Actions and designed to be reused across graduate school documentation categories.

Features

-  Write content in Markdown (README.md)
-  Apply custom styling via Jinja2 template
-  Deploy as a static website via GitHub Pages
-  Export as PDF using WeasyPrint

Setup

1. Clone the repository:

```
bash git clone https://github.com/YOUR-ORG/graduate-doc-template.git your-topic-doc  
cd your-topic-doc
```
2. Edit README.md with your content.
3. Commit and push changes.

GitHub Actions will: - Convert the README to HTML using the Jinja2 template - Export the HTML as a PDF - Publish both to GitHub Pages

Output

- public/index.html – Web version
- public/Document.pdf – Downloadable PDF
